»» YOUR SECURITY INVESTMENT

Your tenants run businesses, and much like you, they arrive at the office each day ready to please their customers. To do so, they depend on you for a safe environment. Let the experts at Paragon Security help you create that environment.

The Paragon presence speaks highly of your commitment to the safety of people in your building and the preservation of their assets. Paragon invests in industry-leading training for its recruits and retains guards longer than competitors in the industry. The result is guards serve Paragon, and its clients, for the long haul.

COMMERCIAL

PARAGON SECURITY

Paragon guards can also provide supervision and the secure access for cleaners, maintenance staff, and trades people as they keep your building in top notch condition. Less regular occurrences, such as tenant moves, elevator difficulties, fire or flood response, or dealing with unruly people are also part of the training every Paragon guard undergoes.

» PARAGON'S MISSION

Paragon Protection Ltd is a privately owned Canadian Security and Investigation Organization, dedicated to providing the finest security services to industry and commerce since 1976.

Paragon's mission is to proactively protect life, property and the assets of our clients. Paragon fulfills this mission through ongoing investment in advanced innovative technology and by ensuring that Paragon's security guards receive continuous training.

Paragon is committed to rewarding its people for their skill and dedication to the customers we serve.

» KNOWING YOUR FACILITY

Patrols throughout the day, depending on your needs, put a visible Paragon presence where you need it most. That may include loading docks, washrooms, stairwells, places where laptops are kept, and any other spots you and Paragon identify in a security analysis of your premises. We know what to cover, so you can be confident of your building's security.

Paragon guards can use an electronic watch tour system with checkpoints distributed throughout your building so you know their patrols are complete.

EDUCATION

»» PARAGON MARKETS

Understanding and preventing security threats begin with understanding the facility itself. Each type of building can present unique situations and all require individual methods of response and prevention. At Paragon we pride ourselves in understanding the different types of facilities and the people who use them. From residents to shoppers, employees to patients, everyone has their own needs and concerns. Our guards are trained to understand them all.

Review our market sectors, you'll find similarities in your own building type. We invite you to talk with one of our security specialists about your building, whether you're looking for a guard solution or a response strategy, answers can be found with Paragon.

»» TRAINING

Paragon invests in industry-leading training for its recruits & retains guards longer than our competitors.

We employ accountable, professional, helpful, responsive candidates who are fit to meet the demanding standards of our clients. Before a successful applicant appears on client premises as a Paragon guard, we teach that person to manage the responsibilities our guards are expected to handle. Training also gives Paragon the chance to determine which client and/or type of facility the new guards are best suited for.
